In 2023/24, our Back to School Program supported 778 students—a 40% increase from last year—highlighting the challenges many families are facing. Thanks to generous contributions like yours, every student received the essential resources they needed to succeed, including textbooks, school supplies, laptops, and calculators.

As we anticipate even more referrals this year, support from partners like Cambridge allows us to continue providing equal educational opportunities. Importantly, our program is fully funded by donors, with no government support. Your donation is truly making a lasting impact, and we are beyond grateful! ❤️
